Aalto University Developing Entrepreneurship (Aalto ENT) understands the challenges of entrepreneurship and offers agile and practical solutions to develop companies' business operations and create new business.

Our offering is targeted both to the start of the entrepreneurial journey and to the later stages when ideas and businesses develop. Aalto ENT develops educational programs to help entrepreneurs lead their teams and companies better and create successful commercial products and services for global customers.

Aalto ENT supports innovation and renewal in organizations using lean startup methodology.

Aalto University Executive Education Ltd is fully owned by Aalto University. We offer a unique portfolio of executive education and professional development solutions and services.

Aalto University - Where Science and Art Meet Technology and Business

All three brands – Aalto EE, Aalto PRO and Aalto ENT – are deeply rooted in the Aalto University community. Aalto University brings to our offering a multidisciplinary approach together with innovative learning methods; this provides a unique combination of practical expertise with Aalto University's latest research.

Our Distinctive Strengths Lie in the Global Operating Model and Prestigious Partner Institutions

We have two strongholds: our Helsinki office coordinates our operations in Europe, while Asia-Pacific operations are led from Singapore. In addition to Finland and Singapore, we currently offer education programs in Poland, South Korea, Sweden, Taiwan, China, Indonesia, Iran, Russia, Vietnam and the Baltic countries.

Context to Experimenting, Stumbling and Learning as well as Building the Best Networks

Each year, more than 6,000 people from over 1,000 organizations benefit from our goal-oriented and comprehensive learning experience that have a proven impact on both the individual and the organization. We nurture and develop the knowledge and skills of individuals, foster self-confidence, and build individual learning paths and meaningful careers. In the core of our expertise is also building architectures for developing competence in entire organizations.
